Notes:

• When stock is sold, you will usually receive Form 1099-B, *Proceeds From Broker and Barter Exchange Transactions*, reporting the proceeds from the sale. However, your statement will not always provide the cost/basis information necessary to compute gain or loss. If the statement does not contain the cost/basis information, you must provide it. You may need to contact your broker for questions about cost/basis and purchase dates of your stock accounts.

• Often, "transfers" of stock or mutual funds within a brokerage account are actually sales of one type of stock and purchase of another. Even if you did not receive any cash from the transaction, you may have taxable gain or loss.

• If your stock dividends are automatically reinvested, the dividends will be taxable even though you did not receive any cash. The transaction is treated as if you had received cash and purchased additional stock. When the stock is sold, the amount reinvested over the years is taken into account. You may need to contact your broker for questions about the amount of reinvested dividends.

• If you sold property other than stock, your taxable gain or loss will be determined by your cost/basis. The cost/basis is usually the original purchase price plus improvements (the cost of repairs and maintenance are not taken into account for cost/basis).

Depreciation. Depreciation is the annual deduction that allows you to recover the cost or other basis of your business property over a certain number of years. Depreciation starts when you first use the property in your business. It ends when you either take the property out of service, deduct all your depreciable cost or basis, or no longer use the property in your business. The IRS has outlined a useful life (a set number of years) for most assets.

A disposition of property occurs when you sell property for cash or other property, you exchange property for other property, you transfer property to satisfy a debt, you abandon property, your bank forecloses or repossesses your property, or your property is damaged, destroyed, or stolen and you receive property or money in payment.

Business Use of the Home

Area of home must be used regularly and exclusively for business except for storage or daycare.

Note: Managing rental activities or investments does not qualify for business use of the home.

Enter below only the expenses paid during the period the home was used for business.

Direct expenses benefit only the business use portion of the home. This includes painting or repairs exclusively for the business area.

Indirect expenses are for keeping up and running the entire home, such as mortgage interest and property taxes.

1) Exclusive Use Test—Business Use of Home

The exclusive use test is met if an area of the home is used only for business. The area can be a room or other separately identifiable space. The space does not need to be marked off by a permanent partition. This test is not met if you use the area both for business and for personal purposes, such as a den used for business during the day and TV viewing during the evening. Storage of inventory or product samples—exception to exclusive use test. If you use part of a home for business to store inventory or product samples, you are not required to meet the exclusive use test. However, you must meet all the following tests.

- You are in the business of selling products at wholesale or retail.
- The inventory or product samples are kept in the home for use in the business.
- You home is the only fixed location of the business.
 - The storage space is used on a regular basis.
 - The storage space is a separately identifiable space suitable for storage.

2) Regular Use Test—Business Use of Home

The exclusive use test is not required for:

• A home used as a daycare facility.

product samples.

The regular use test means you must use a specific area of the home for business on a regular basis. Incidental or occasional business use is not regular use. All facts and circumstances are considered in determining whether the business use is regular.

3) Trade or Business Use Test—Business Use of Home

· An area used on a regular basis for storage of inventory or

To satisfy the trade or business use test, the portion of the home used for business must be used in connection with a trade or business. If the business use is for a profit-seeking activity that is not a trade or business, the deduction is not allowed.

4) Principal Place of Business Test—Business Use of Home

A trade or business can have more than one location. To qualify for a business use of home deduction, the home must be the principal place of business for that trade or business. To make this determination, the following are considered. A home office qualifies under this test if:

- The home office is used exclusively and regularly for administrative or management activities of the trade or business.
- There is no other fixed location where substantial administrative or management activities are conducted.
- The relative importance of the activities performed at each place where business is conducted, andThe amount of time spent at each place where business is

Self-Employment (SE) Tax

conducted.

- SE tax is a Social Security and Medicare tax primarily for individuals who are self-employed. It is similar to the Social Security and Medicare tax withheld from the pay of most wage earners. Your payments of SE tax contribute to your coverage under the Social Security system. Social Security coverage provides you with retirement benefits, disability benefits, survivor benefits, and hospital insurance (Medicare) benefits.
- You must pay SE tax if your net earnings from self-employment were \$400 or more, or you had church employee income of \$108.28 or more. The SE tax rules apply no matter how old you are and even if you are already receiving Social Security or Medicare benefits.
- The SE tax rate on net earnings is 15.3% (12.4% for Social Security plus 2.9% for Medicare). Only the first \$160,200 (2023) of combined wages, tips, and net earnings is subject to the 12.4% Social Security part of SE tax.

WHAT YOU NEED TO KNOW ABOUT THE CORPORATE TRANSPARENCY ACT -

This applies to all LLC's and penalties apply for failure to comply.

The Corporate Transparency Act (CTA), enacted in 2021, was passed to enhance transparency in entity structures and ownership to combat money laundering, tax fraud, and other illicit activities.

When do reports need to be filed for the Corporate Transparency Act?

The Corporate Transparency Act comes into effect on January 1, 2024. Reporting companies that are in existence on the effective date must file their initial reports within one year.

Reporting companies created after the effective date have 30 days after receiving notice of their creation or registration. However, FinCEN has proposed to extend the initial filing deadline for BOI reports from 30 to 90 days for entities created or registered in 2024.

Reports must be updated within 30 days of a change to the beneficial ownership, e.g., through the sale of a business, merger, acquisition, or death, or 30 days upon becoming aware of or having reason to know of inaccurate information previously filed

Corporate Transparency Act/Beneficial Ownership Reporting Assisting you with your compliance with the Corporate Transparency Act ("CTA"), including beneficial ownership information ("BOI") reporting, is NOT within the scope of this engagement. You have sole responsibility for your compliance with the CTA, including its BOI reporting requirements and the collection of relevant ownership information. We shall have no liability resulting from your failure to comply with CTA. Information regarding the BOI reporting requirements can be found at https://www.fincen.gov/boi. Consider consulting with legal counsel if you have questions regarding the applicability of the CTA's reporting requirements and issues surrounding the collection of relevant ownership information.

I have read about the Corporate Transparency Act and am aware of the requirements and am aware of penalties for failure to comply. I also understand that MV Tax & Accounting is not responsible for the filing, reporting or ensuring that clients are in full compliance.

Agricultural Program Payments

Commodity Credit Corporation (CCC) Loans

Loan proceeds are generally not included in income. But if a farmer pledges a portion of crop production to secure a CCC loan, the proceeds can be treated as if it were a sale of crops. If this method is elected, the amount reported as income is added to the basis of the commodity.

Conservation Reserve Program (CRP)

Under this program, the government pays farmers with highly erodible or other specified cropland to convert its usage to a less intensive use. Rental payments and one-time incentive payments are taxable and are subject to self-employment tax.

Exception: CRP payments made to taxpayers who are receiving Social Security retirement or disability benefits are exempt from self-employment tax.

Crop insurance and Crop Disaster Payments

Insurance proceeds (including government disaster payments) received due to damaged crops are taxable in the year received. This includes payments for the inability to plant crops because of drought, flood, or any other natural disaster. The taxpayer can elect to postpone reporting income until the following year if:

- The cash method of accounting is used,
- Insurance proceeds are received in the same year the crops were damaged, and
- Under normal business practice, the taxpayer would have included income from the damaged crops in any tax year following the year the damage occurred.

Feed Assistance and Payments

The value of benefits received under this program is taxable. The government provides benefits to qualifying livestock producers when a natural disaster causes a livestock emergency. Benefits may be in the form of partial reimbursement of the cost of feed, certain transportation expenses, and donations of, or sale at, below market price of feed owned by the CCC. The following are included in taxable income.

- The market value of donated feed received.
- The difference between the market value of feed and the reduced price of feed purchased by the taxpayer.
- · Any cost reimbursements received.

These benefits are taxable in the year received. They cannot be postponed under the crop insurance or weather-related sale of livestock rules. A corresponding deduction for the cost of feed, plus the benefit included in income, is allowed.

Prepaid farm supplies include feed, seed, fertilizer, and similar farm supplies that are not used or consumed as of the end of the tax year. A deduction for prepaid farm supplies may be limited to 50% of the total other deductible farm expenses for the year.

Real Estate Taxes on Farm Land

Taxes on the portion of the farm used as the taxpayer's personal residence should be deducted as itemized deductions rather than as business deductions.

Soil and Water Conservation Expenses

A farmer can choose to deduct certain expenses for soil or water conservation or for the prevention of erosion of land used in farming. Otherwise, these expenses are capital expenses added to the basis of the land. The deduction is limited to 25% of gross income from farming. Excess amounts are carried forward.
